

Dear Partners,

Greetings from Norwich!

The John Innes Centre, a fellow member of the Norwich Research Park, is hosting an [International Undergraduate Summer School](#) in 2020.

The Undergraduate Summer School is a unique opportunity for undergraduates from all corners of the world with an interest in plant science/microbiology to spend eight weeks at the internationally renowned John Innes research centre, partnering with fellow Norwich Research Park institutes; The Sainsbury Laboratory and the Earlham Institute. The 2020 summer school will run from **Sunday 28 June – Friday 21 August**. Students experience plant and microbial science, interacting with world-leading scientists and gain an unrivalled insight into research.

The programme will be fully-funded, including a £250 per stipend and free accommodation in an en-suite room within walking distance from the John Innes Centre. We invite you to share this wonderful opportunity with your students - applications close Monday 20 January 2020 and students will be able to access the application form [here](#).

Wishing you all a wonderful and restful festive period, and a happy and healthy New Year!

On behalf of the John Innes Centre,
